# Spring 25

This presentation has not been created by Salesforce, Inc but is based on forward looking statements.

Statement under the Private Securities Litigation Reform Act of 1995:

This presentation may contain forward-looking statements that involve risks, uncertainties, and assumptions. If any such uncertainties materialize or if any of the assumptions proves incorrect, the results of salesforce.com, inc. could differ materially from the results expressed or implied by the forward-looking statements we make. All statements other than statements of historical fact could be deemed forward-looking, including any projections of product or service availability, subscriber growth, earnings, revenues, or other financial items and any statements regarding strategies or plans of management for future operations, statements of belief, any statements concerning new, planned, or upgraded services or technology developments and customer contracts or use of our services.

The risks and uncertainties referred to above include – but are not limited to – risks associated with developing and delivering new functionality for our service, new products and services, our new business model, our past operating losses, possible fluctuations in our operating results and rate of growth, interruptions or delays in our Web hosting, breach of our security measures, the outcome of any litigation, risks associated with completed and any possible mergers and acquisitions, the immature market in which we operate, our relatively limited operating history, our ability to expand, retain, and motivate our employees and manage our growth, new releases of our service and successful customer deployment, our limited history reselling non-salesforce.com products, and utilization and selling to larger enterprise customers. Further information on potential factors that could affect the financial results of salesforce.com, inc. is included in our annual report on Form 10-K for the most recent fiscal year and in our quarterly report on Form 10-Q for the most recent fiscal quarter. These documents and others containing important disclosures are available on the SEC Filings section of the Investor Information section of our Web site.

Any unreleased services or features referenced in this or other presentations, press releases or public statements are not currently available and may not be delivered on time or at all. Customers who purchase our services should make the purchase decisions based upon features that are currently available. Salesforce.com, inc. assumes no obligation and does not intend to update these forward-looking statements.

## More Activity Fields

- Now create up to 300 custom fields on tasks/events, instead of 100
- But if you go over 400 million activities, you can't create more
- Enterprise, Performance and Unlimited editions

## Collaborative Forecasting is now Pipeline Forecasting

- Just rebranding

## Custom Welcome Email

- Can now create your own welcome to Salesforce email, for new users
- Be sure to include the `{!NewUserWelcomeEmailLink}` merge field

# Security

## View All Fields / View All Records / Modify All Records (Demo)

- New permission that essentially gives you read only FLS to all fields on an object by object basis
- Automatically grants access for newly created fields
- Prior View All / Modify All renamed View All Data & View All Records

## Add/Remove Permission Sets from Summary (Demo)

- Add or remove a permission set to a permission set group from the 'View Summary' button

## Enhanced Permission Set List Views (Demo)

- Actual list views for permission sets
- Enable in User Management Settings

## Login With Email Address (rolling change)

- [login.salesforce.com](https://login.salesforce.com) will have a Log In with Email button
- You can then enter your email address instead of your salesforce username, which is usually your email
- If you're in many orgs, it'll let you pick which one to log into
- My Domain - Prevent login from <https://login.salesforce.com> and <https://welcome.salesforce.com>

## Password Reset MFA (rolling change)

- Use MFA to reset your password instead of a security question
- Only applies to internal users

## Password Reset Links Don't Expire Upon Click

- Used to be clicking a password reset link would expire it
- This was a problem with a lot of email clickjacking protection products

# Lightning

## Multicolumn Related List Sorting (Demo, Opportunities)

- Sort by 1 to 5 columns
- Choices impacts you; cannot specify multisort as an org default
- List View Control for resetting the sort options
- Also available on View All in related records lists

## API Name in Related Lists Component (Demo, Account)

- See the API name of the objects, not just the label, when editing lightning pages

# Flows

## Flow Paths (Demo)

- Make a step by step path in your screen flows
- Add and remove stages dynamically

## Flow Versions (Demo)

- See prior versions of a flow from flyout in upper left
- Doesn't highlight differences, just opens the old version

## Ctrl-Z (Demo)

- You can now ctrl-z / cmd-z to undo

# Flows

## Get Limits (Demo)

- Specify a limit of 2 to 20000 records in a get element
- Just like the SOQL “LIMIT” keyword

## Email an Attachment (Demo)

- Send Email action now supports sending one or more attachments
- Must specify recordId of AttachmentId or ContentVersion
- Attachment limit of 35MB

## Flow Approval Process

- Works across flows to set up an approval process
- Assign approval steps to groups or queues
- Send notifications
- Approve through a screen flow or via email
